Functional Description

1. Supports fast charging protocols such as QC2.0, QC3.0, PD, PPS, AFC, FCP, SCP, BC1.2, Apple 2.4A/MTK.
2. Both USB and Type-C ports provide independent outputs.
3. Dual-port fast charging is supported.

Operating Instructions

1. Insert the car charger into the cigarette lighter socket of the vehicle. When the vehicle's power is turned on, the digital display of the power value and the indicator light of the DC cable will light up, indicating that the car charger is working properly.
2. Connect one end of an external charging cable to the output port of the car charger and the other end to a mobile phone or other digital device. At this time, the device will begin charging.
3. Alternatively, connect a mobile phone or other digital device directly to the DC cable output port. The device will be charged immediately.

Safety Precautions

1. Always plug in the device for charging after the car engine is started.
2. Do not use the charger in damp environments or during thunderstorms.
3. Avoid using strong chemicals, cleaning agents, or similar substances to clean the charger.
4. Use proper and safe charging cables when using the device, and unplug the plug after use.
5. This product is an electronic device. Please do not drop or bump it violently.
