Schematic View

③ Input/Output (Type-C)

① Power Button

② LED Light

Specifications

Capacity	5000mAh (18.5Wh)
Material	ABS+PC
Total Power	10W
USB-C Input	5V/2A
USB-C Output	5V/2A
Operating Temperature	Recharge: 0~45°C Discharge: -10~55°C
Product Size	28×30×87mm
Product Weight	95g

Function Introduction

[A] Power Detection

Press the button. If the light does not turn on, the power is insufficient and the device needs charging. The charging light will indicate when charging is in progress, and the light will turn off once fully charged.

[B] Charging Methods

Method 1:

1. Connect the product to your computer.
2. Take the included cable, plug one end into the adapter and the other end into the DC input interface on the product.
3. Connect the USB end to the computer's USB port.
4. The light will flash while charging and remain solid when fully charged.

Method 2:

1. Take the product cable, connect one end to the adapter, and then insert the other end into the DC input interface on the product.
2. Connect the USB end to the USB port of the DC5V adapter.
3. The light will flash while charging and stay on once fully charged.

[C] How to Charge Digital Products:

The mobile power supply is designed to charge mobile phones and digital products with a DC5V input.

Note:

a. Use the original charging cable for the device, or the charging and discharging interface provided with this product.
b. Make sure to select the appropriate adapters for different devices.

Precautions

1. For the first use, fully discharge the product.

2. If the product shows any abnormalities such as battery swelling, leakage, deformation, water damage, or short-circuiting, stop using it immediately.

3. Avoid dropping or using the product in environments with high temperature, humidity, or strong magnetic fields.

4. Keep out of reach of children, infants, and pets.

5. Do not leave the product in a car. High-temperature environments can damage the battery.

6. Once charging is complete, unplug the cable promptly to prevent potential issues.

7. If the product enters protection mode (e.g., due to short circuit or over-discharge), and there is no output, press the switch button briefly to reactivate. If this doesn't work, connect it to an external power adapter to recover.

8. Avoid using an all-in-one data cable to charge multiple devices at the same time, as this may cause damage to the devices.

9. If the power bank is not used for an extended period, over-discharge may occur. To maintain optimal performance, fully charge and discharge the power bank at least once every 3 months.

Warning

1. This product contains lithium-ion batteries. To prevent potential hazards, do not open the casing without authorization.

2. To avoid fire hazards, do not disassemble, crush, puncture, short-circuit, or expose the product to fire or temperatures exceeding 60°C.

Warranty

Products procured directly from the **Levelo** website or physical store comes with a 24-month warranty. **Levelo** products purchased from any of our authorized dealers are guaranteed with a one-year warranty. If you wish to extend this warranty, you'll need to go to our website at **https://levelobrand.com/warranty** and fill out the necessary form, making sure to include your personal information and a photo of the product. After your request has been evaluated and accepted, we'll send you an email notification to affirm the extension of your product's warranty.
