Instructions for Use

1. Place the phone, AirPods, or iWatch at the center of the charging area. To achieve fast charging, use a charger with QC18W or PD20W to supply power to the wireless charger.
2. The charging distance is 2mm. Do not use a protective case thicker than 2mm. Magnetic and metal attachments, or credit cards, may affect the charging stability. Please remove these items before charging.
3. The watch has a temperature control feature. If the temperature exceeds 45°C, the device will stop charging automatically. If the temperature returns to normal, charging will resume.

Precautions

1. Charging is faster in winter than in summer. The lower the temperature, the faster the charging speed.
2. Avoid charging in high-temperature and humid environments to prevent damage to the circuit.
3. Keep the charger out of the reach of children to avoid unnecessary accidents.
4. Keep the charger away from flammable and explosive liquids or gases.

Disposal

This product must not be disposed of as unsorted household waste. It is important to separate such waste for proper treatment and recycling, in compliance with local waste management regulations.
